

HARSHAWARDHAN JADHAV

SOFTWARE DEVELOPER

CONTACT

- 9307768087
- harshawardhanjadhav222@gmail.com
- Narhe, Pune 411041

TECHNICAL SKILLS

- Programming Language** - C++,C#, HTML,CSS, Java Script,Ajax React.js
- Database** - SQL Server
- Framework** - DOT net (Ado.net, MVC, MVC core)
- IDE** - Visual Studio,Dev-C++

EDUCATION

- Dr babasaheb ambedkar marathwada university sambhajinagar**
Bachelor's In Computer Science (BCS) (2021-2024)
- Maharashtra State Board**
HSC (2018-19) :- 79%
SSC (2016-17):-94%

SKILLS

- Effective communication skills
- Collaboration and teamwork
- Adaptability and willingness to learn
- Time management and organization

ABOUT ME

Hardworking and passionate job seeker with strong organizational skills eager to secure entry-level Software developer position. Ready to help team achieve company goals. To seek and maintain full-time position that offers professional challenges utilizing interpersonal skills, excellent time management and problem solving skills. Organized and dependable candidate successful at managing multiple priorities with a positive attitude, Willingness to take on added responsibilities to meet team goals.

WORK EXPERIENCE

Junior Software Developer

Aarohiinfo FI Management Limited

(May2023 - Present)

- As a Junior .NET Developer, I contributed to the development and maintenance of software applications using the .NET framework. Collaborating with senior developers, I gained hands-on experience in coding, debugging, and testing software components. My role involved learning new technologies, adhering to coding standards, and assisting in the implementation of software solutions. Through this experience, I honed my skills in C#, ASP.NET, and SQL Server, while also developing problem-solving abilities and teamwork skills essential for success in software development..
- Experience with ASP.NET MVC or ASP.NET Core.
- Understanding of software testing principles and techniques.

PROFESSIONAL TRAINING

Full Stack Dot net Developer

Aarohiinfo FI Management Limited

(Feb 2023- May 2024)

- During my internship as a Dot Net Software Developer at Aarohiinfo FI Management Limited , I had the opportunity to apply my theoretical knowledge to real-world projects and gain valuable hands-on experience in software development.
- Collaborated with senior developers to integrate third-party APIs for enhanced functionality, such as payment gateways and shipment tracking systems.
- Contributed to troubleshooting and debugging efforts, identifying and resolving issues in the codebase to ensure smooth project execution.

CERTIFICATION

PGP in IT Management

Aarohiinfo FI Management Limited ,Pune

- In IT Management offered a dynamic blend of theoretical learning and practical experience. Through hands-on projects, industry insights, and ethical leadership training, I gained the skills and knowledge needed in managing IT resources effectively.
- Student Of The Year (2022),(2023)**
Tulsi College of Computer Science and Information ,Beed

C , C++,C# , Web-Development , SQL [Certificates]

Atharva Computer And Management Science Training Institute, Beed

PROJECTS

Category And Product Management System using ASP.NET MVC:

- Main Purpose of the application is to manage categories and products with CRUD Operations.
- The Category Master Allows users to create, read, update and delete categories.
- Product Master also allows users to perform CRUD Operations on products and each product is assigned to a specific category.

Employee Management System Using ASP.net MVC:

- The Category Master Allows users to create, read, update and delete categories.
- Employee Master also allows users to perform CRUD Operations on products and each product is assigned to a specific category.

Stationary Management Using ASP.net Core:

- This Project is about an ASP.net MVC Core web application with Entity framework using Code-first Approach.
- This Project Include Complicated Parts like Purchase Order, purchase Bill, Vender Payment.

E-commerce Website:

- Products storing in Cart.
- Header, Footer design using Html, CSS.
- Storing Records of Products. Billing system.
- Contributed to the development of an e-commerce platform using ASP.NET MVC framework. Integrated payment gateways, implemented product catalog management, and enhanced user authentication and authorization features. Collaborated with the team to optimize website performance and ensure a seamless shopping experience.

Real-Time Chatbox Application

- Developed a robust real-time chat application using ASP.NET MVC Core and SignalR.
- The project aimed to facilitate seamless communication between users by providing instant messaging capabilities within a web environment.
- Message Persistence: Enabled message history retrieval and storage to allow users to view past conversations.
- Notification System: Developed a notification system to alert users of new messages and updates in real-time.

Learning Management System (LMS)

- Collaborated with a team to develop a comprehensive Learning Management System (LMS) using MVC Core.
- The project aimed to create an efficient platform for managing educational courses, tracking student progress, and facilitating online learning.
- Course Management: Enabled administrators and instructors to create, update, and manage courses, including multimedia content and assessments.
- User Roles and Permissions: Implemented role-based access control to distinguish between students, instructors, and administrators.
- Enrollment System: Developed a streamlined process for student enrollment and course registration.
- Progress Tracking: Included features for tracking student progress, grading, and providing feedback.
